

INTERESTED IN A JOINT RESEARCH OPPORTUNITY?

Middle East Technical University

&

Georgia Institute of Technology

- We are looking for a masters student who is going to work on a thesis subject of "**Crack Detection in Flexible Structures Using Modal Parameters and Embedded Piezoelectrics**"
- The student is going to be supervised by **Dr. Ender Çiğeroğlu (METU)** and **Dr. Alper Ertürk (Georgia Tech)**. Students who would like to pursue a Ph.D. degree (possibly at Georgia Tech) after completion of MS are preferred.
- If you are interested in this thesis subject, please contact Dr. Ender Çiğeroğlu at **B-314** or e-mail to **ender@metu.edu.tr**.

Piezo patch and thin-film battery embedded carbon fiber beam
