OUTLINE

OBJECTIVES:

The course has three main objectives:

I) The first objective of the course is to increase student knowledge and understanding of the Turkish economy. A supplementary objective in this regard is to give students a development economics perspective. Students will also be encouraged to draw on material from other countries and prepare their papers on a comparative basis with Turkey to gain a comparative perspective. To give students with different backgrounds a good start, there will at the beginning be a short reading period from three texts on the Turkish economy. These are:

At the end of this reading period, students will take a 2-hour examination on this reading material. The emphasis in this examination will be on testing students’ understanding of the linkages between different events as well as on testing their knowledge on specific developments. This examination will start at 14.40 PM,
on Wednesday, 30 March in Room F-107. Before this preliminary examination one session (23 March) will be devoted to student presentations of the introduction of their papers to the whole group. After the examination, there will be a total of eight sessions two of which (27 April and 25 May) devoted more specifically to a general discussion and progress reports of students’ research papers.

II) The second objective of the course is to increase students’ ability and skills in research and academic essay-writing. For this purpose, students are required to prepare a research paper on an approved subject of approximately 15 pages (around 4,000 words) long. For papers with more than one author these limits can be extended to 25 pages and 7,000 words. Students will meet with the instructor on Wednesday 9 March on an individual basis to finalize their paper topics. In the preparation of papers, team work (two or three students working on the same subject) is encouraged on condition that responsibility of each individual student is clearly indicated.

The papers are expected to tackle (an) appropriate research question(s) and have a sound analytical and empirical content. Papers are expected to contain a brief critical literature review and empirical analysis. Comparative analyses between Turkey and another country are encouraged. The papers will be presented to the whole group at the end of term.

Students are expected to prepare two critical reviews (about 3 pages long, each) of papers from two different sessions. All written work should be sent to the instructor, electronically and submitted to him as hard copy by 7.00 P.M on the Monday, preceding the relevant session. Written work will be returned to students (with instructor comments) on the following Wednesday. The instructor will provide detailed information on the technique/art of writing research articles, paper reviews, and all other written work.

III) The third main objective of the course is to enhance student ability to make effective presentations and take an active part in class discussion. Students will present reviews for two papers (approx. 15 minutes, each), and their research paper (approx. 20 minutes) to the whole group. They will also act as commentators for 2 papers (approximately, 10 minutes each). Students are required to read extensively for each session, make class presentations, and take an active part in class discussion.

The main reading list for each session is provided below. It is essential that students attend all sessions on a regular basis.
