

# MATH 254

## Introduction to Differential Equations

### METU Mathematics Department

#### Titles of Videos:

- 1) Math 254-2021.08.09.1: Section 1.1- Some Mathematical Models and Direction Fields
- 2) Math 254-2021.08.09.2: Section 1.1- 1.3 - Some Mathematical Models and Direction Fields, Solutions of Differential Equations, Classifications of Differential Equations
- 3) Math 254-2021.08.09.3: Section 1.3 and 2.1- Classifications of Differential Equations, Linear Equations; Method of Integrating Factors
- 4) Math 254-2021.08.10.1: Section 2.1(Continued) – 2.2 Separable Equations and First Order Homogeneous Equations
- 5) Math 254-2021.08.10.2: Homogeneous Equations (Continued), Section 2.3 Modelling with First Order Equations
- 6) Math 254-2021.08.10.3: Modelling with First Order Equations (Continued), Section 2.4 Differences Between Linear and Nonlinear Equations
- 7) Math 254-2021.08.11.1: Section 2.4 Differences Between Linear and Nonlinear Equations (Continued)
- 8) Math 254-2021.08.11.2: Section 2.6 Exact Equations and Integrating Factors
- 9) Math 254-2021.08.11.3: Section 2.6 Exact Equations and Integrating Factors (Continued)
- 10) Math 254-2021.08.16.1: Section 7.1.-7.4 Basic Theory of Systems of ODE's and Review of Matrices and Diagonalization.
- 11) Math 254-2021.08.16.2: Section 7.1.-7.4 Basic Theory of Systems of ODE's and Review of Matrices and Diagonalization (Continued)
- 12) Math 254-2021.08.16.3: Section 7.5 Homogeneous Linear Systems with Constant Coefficients.
- 13) Math 254-2021.08.17.1: Section 7.5 Homogeneous Linear Systems with Constant Coefficients (Continued)
- 14) Math 254-2021.08.17.2: Section 7.5 Homogeneous Linear Systems with Constant Coefficients (Continued), Section 7.6 Complex Eigenvalues
- 15) Math 254-2021.08.17.3: Section 7.6 Complex Eigenvalues (Continued), Section 7.8 Repeated Eigenvalues
- 16) Math 254-2021.08.18.1: Section 7.8 Repeated Eigenvalues (Continued)
- 17) Math 254-2021.08.18.2: Section 7.8 Repeated Eigenvalues (Continued), Section 7.7 Fundamental Matrices
- 18) Math 254-2021.08.18.3: Section 7.7 Fundamental Matrices (Continued), Section 7.9 Non Homogeneous Linear Systems
- 19) Math 254-2021.08.23.1: Section 7.9 Non Homogeneous Linear Systems (Continued), Section 3.1 Homogeneous Equations with Constant Coefficients
- 20) Math 254-2021.08.23.2: Section 3.1 Homogeneous Equations with Constant Coefficients (Continued), Section 3.2 Homogeneous Equations, Linear Dependence and Wronskian

- 21) Math 254-2021.08.23.3: Section 3.3 Complex Roots of the Characteristic Equation
- 22) Math 254-2021.08.24.1: Section 3.4 Repeated Roots and Reduction of Order
- 23) Math 254-2021.08.24.2: Section 3.4 Repeated Roots and Reduction of Order (Continued)
- 24) Math 254-2021.08.24.3: Section 3.4 Repeated Roots and Reduction of Order (Continued), Section 3.5 Non homogeneous Equations and Method of Undetermined Equations
- 25) Math 254-2021.08.25.1: Section 3.5 Non homogeneous Equations and Method of Undetermined Equations (Continued)
- 26) Math 254-2021.08.25.2: Section 3.6 Variation of Parameters
- 27) Math 254-2021.08.25.3: An experiment on Section 3.7 and 3.8 Vibrations and Forced Vibrations
- 28) Math 254-2021.08.31.1: Section 3.7 Electrical and Mechanical Vibrations
- 29) Math 254-2021.08.31.2: Section 3.7 Electrical and Mechanical Vibrations (Continued), Section 3.8 Forced Vibrations
- 30) Math 254-2021.08.31.3: Section 3.8 Forced Vibrations (Continued)
- 31) Math 254-2021.09.01.1: Section 5.1 Review of Power Series, Section 5.2 and 5.3 Series Solutions Near An Ordinary Point, Part 1 and Part 2.
- 32) Math 254-2021.09.01.2: Section 5.2 and 5.3 Series Solutions Near An Ordinary Point, Part 1 and Part 2.
- 33) Math 254-2021.09.06.1: Section 5.4 Euler's Equations, Section 5.5, 5.6, Series Solutions Near a Regular Singular Point, Part 1, Part 2.
- 34) Math 254-2021.09.06.2: Section 5.5, 5.6, Series Solutions Near a Regular Singular Point, Part 1, Part 2. (Continued)
- 35) Math 254-2021.09.06.3: Section 6.1 Definition of Laplace Transform, Section 6.2 Solution of Initial Value Problems
- 36) Math 254-2021.09.07.1: Section 6.2 Solution of Initial Value Problems (Continued)
- 37) Math 254-2021.09.07.2: Section 6.3 Step Functions, Section 6.4 Differential Equations with Discontinuous Forcing Functions
- 38) Math 254-2021.09.07.3: Section 6.4 Differential Equations with Discontinuous Forcing Functions (Continued), Section 6.5 Impulse Functions
- 39) Math 254-2021.09.08.1: Section 6.5 Impulse Functions (Continued), Section 6.6 The Convolution Integral
- 40) Math 254-2021.09.08.2: Section 6.6 The Convolution Integral (Continued)
- 41) Math 254-2021.09.08.3: Examples Related to Laplace Transform
- 42) Math 254-2021.09.13.1: Section 10.1 Two-Point Boundary Value Problems, Section 10.5 Separation of Variables; Heat Conduction in a Rod
- 43) Math 254-2021.09.13.2: Section 10.5 Separation of Variables; Heat Conduction in a Rod (Continued), Section 10.2 Fourier Series
- 44) Math 254-2021.09.13.3: Section 10.2 Fourier Series (Continued)
- 45) Math 254-2021.09.14.1: Section 10.3 Fourier Fourier Convergence Theorem, Section 10.4 Even and Odd Functions
- 46) Math 254-2021.09.14.2: Section 10.6 Other Heat Conduction Problems
- 47) Math 254-2021.09.14.3: Section 10.6 Other Heat Conduction Problems (Continued)
- 48) Math 254-2021.09.15.1: Section 10.6 Other Heat Conduction Problems (Continued)
- 49) Math 254-2021.09.15.2: Section 10.7 Wave Equation, Section 10.8 Laplace's Equation

50) Math 254-2021.09.15.3: Section 10.8 Laplace's Equation (Continued)
