

MATH 262
LINEAR ALGEBRA II
METU Mathematics Department

Titles of Videos:

- 1) Math 262-1: Review of Math 261-1
- 2) Math 262-2: Review of Math 261-2
- 3) Math 262-3: Review of Math 261-3
- 4) Math 262-4: Review of Math 261-4
- 5) Math 262-5: Review of Math 261, Exterior Products-1
- 6) Math 262-6: Review of Math 261, Exterior Products-2
- 7) Math 262-7: Vandermonde Matrices and Its applications
- 8) Math 262-8: Canonical Forms-1, Rings and PID's
- 9) Math 262-9: Canonical Forms-2, Modules over a PID
- 10) Math 262-10: Canonical Forms-3, Submodules and Quotient Modules
- 11) Math 262-11: Smith Normal Form-1
- 12) Math 262-12: Smith Normal Form-2
- 13) Math 262-13: Canonical Forms Via Smith Normal Form-1
- 14) Math 262-14: Canonical Forms Via Smith Normal Form-2
- 15) Math 262-15: Canonical Forms Via Smith Normal Form-3
- 16) Math 262-16: Canonical Forms Via Smith Normal Form-4
- 17) Math 262-17: Minimal Polynomial and Diagonalization-1
- 18) Math 262-18: Minimal Polynomial and Diagonalization-2
- 19) Math 262-19: Minimal Polynomial and Diagonalization-3
- 20) Math 262-20: Jordan Canonical Form-1
- 21) Math 262-21: Jordan Canonical Form-2
- 22) Math 262-22: Jordan Canonical Form-3
- 23) Math 262-23: Examples on Canonical Forms-1
- 24) Math 262-24: Examples on Canonical Forms-1
- 25) Math 262-25: Similar Matrices and Smith Normal Form
- 26) Math 262-26: Simultaneous Diagonalization
- 27) Math 262-27: Sylvester's Method-1
- 28) Math 262-28: Sylvester's Method-2
- 29) Math 262-29: Sylvester's Method-3
- 30) Math 262-30: Sylvester's Method-4
- 31) Math 262-31: Vector Spaces with Scalar Inner Products-1
- 32) Math 262-32: Vector Spaces with Scalar Inner Products-2
- 33) Math 262-33: Gram-Schmidt Procedure-1
- 34) Math 262-34: Gram-Schmidt Procedure-2
- 35) Math 262-35: Isomorphism Between a Space and its Dual Using Bilinear Forms
- 36) Math 262-36: Orthogonal Subspaces-1
- 37) Math 262-37: Orthogonal Subspaces-2
- 38) Math 262-38: Orthogonal Subspaces-3

- 39) Math 262-39: Orthogonal Transformations-1
- 40) Math 262-40: Diagonalization of Hermitian and Symmetric Operators-1
- 41) Math 262-41: Diagonalization of Hermitian and Symmetric Operators -2
- 42) Math 262-42: Classification of Quadratic Forms -1
- 43) Math 262-43: Classification of Quadratic Forms -2
- 44) Math 262-44: Characterization of Orthogonal Operators
- 45) Math 262-45: Singular Value Decomposition -1
- 46) Math 262-46: Singular Value Decomposition -2
- 47) Math 262-47: Singular Value Decomposition -3
- 48) Math 262-48: Pfaffian of a Skew Symmetric Matrix -1
- 49) Math 262-49: Pfaffian of a Skew Symmetric Matrix -2
- 50) Math 262-50: Problem Session-1
- 51) Math 262-51: Problem Session-2
